Before

Located in the heart of Downtown St. Petersburg, the Vinoy Renaissance Resort & Golf Club is one of the city's most iconic hotels.

We fabricated a total of 187 custom cushions with 13 different configurations for the hotel: dining chair seat, lounge chair, love seat, center sectional, end sectionals, as well as ottomans.

Patio Lane returned to the Epicurean Hotel, Autograph Collection to add beautiful and quick-dry Sunbrella cushions to their pool area, VIP rooms, terrace, entrance breezeway and outside their deluxe suites. (yes, we did the pillows, too!)

Guy Harvey's RumFish Grill located in the Tradewinds Island Resort attracts not only tourists but even locals within the St. Petersburg, Florida area.

RumFish can now leave their cushions outdoors all the time, allowing for outdoor seating that's readily available even with Florida's daily downpours. RumFish employees simply wipe off the surface moisture and they're back in business with cushions that are immediately dry after it rains.
